  - (3) That prescribed medication is the least restrictive form of intervention necessary to meet the treatment needs of the patient; and
  - (4) That the benefits of the treatment outweigh the known risks to the patient.
- b. The court shall inquire whether the patient has had a sufficient opportunity to adequately prepare to meet the issue of involuntary treatment with prescribed medication and, at the

  - (2) The patient's current condition;
  - (3) The patient's treatment history;
  - (4) The results of previous medication trials;

- b. Involuntary treatment with prescribed medication may not be authorized by the court solely for the convenience of facility staff or for the purpose of punishment.

The order for involuntary treatment with prescribed medication, however, may not be in effect for more than ninety days.

If the respondent is indigent, the county of residence of the respondent shall pay for the cost of the examination and the respondent may choose an independent expert examiner.

The hearing must be held in the county of the respondent's residence or location or the county where the state hospital or treatment facility treating the respondent is located. At the hearing, evidence in support of the petition must be presented by the state's attorney, private counsel, or counsel designated by the court.
